

Energy Consultant

(Ref: 18/23)

Grant Thornton Greece is a member firm of Grant Thornton International Limited (GTIL), one of the leading organizations delivering audit, tax and advisory services. Grant Thornton, is currently seeking for a confident and self-motivated Energy Consultant, who will contribute to the successful expansion of the energy portfolio of Grant Thornton's Energy Department and will help to further strengthen our potential in the market. This is a mid-level role within the Energy Team and we shall recruit on merit.

Role

You will join our fast-growing Energy team and will have the following duties and responsibilities:

- Develop Grant Thornton's energy project portfolio
- Support the full acquisition process of new projects including research missions, coordination and writing of technical proposals and budget planning
- Conduct technical consultancy research and data analysis
- Contribute to the drafting of technical reports
- Prepare concepts and presentations in the course of our on-going projects
- Interact on a frequent basis with customers at technical and project level
- Contribute to the expansion of the project pipeline with new clients
- Extend of Grant Thornton's network to member firms and energy experts
- Project management and backstopping of our expert teams towards meeting KPIs targets
- Assist with building and maintaining accurate simulation-ready datasets
- Maintain a decent level of European Energy Markets knowledge, news, trends and developments

Requirements

- University degree in a relevant area (engineering or energy economics)
- At least 5 years of relevant work experience in energy technology and/or service provision
- At least 5 years of work experience as project manager or consultant
- Solid knowledge of the Greek Energy Market
- Good knowledge of EU policies and strategies for electricity and/or gas
- Ability to manage complex situations and familiarise with new topics quickly
- Familiarity with the strategies and programmes of EU donor agencies and IFIs
- Knowledge of technical software for data analysis, and/or project management will be an asset
- Previous experience with databases and/or familiarity with IoT will be an asset
- Excellent command of spoken and written English
- Strong writing, communication and presentation skills
- Advanced proficiency in standard MS Office applications
- Willingness to travel abroad

What we offer

- Competitive remuneration and benefits package
- Friendly and dynamic working environment, in which you can develop your skills and competencies
- A work-life balance work place with a strong focus on values and the joint aim to provide the best possible solutions for our clients.
- Formal training, coaching and mentoring
- Your professional and personal success is our commitment
