IBR Surveys

The Grant Thornton International Business Report (IBR) is the world's leading mid-market business survey.

Launched in 1992 in nine European countries, the report now surveys more than 10,000 senior executives in 35 economies on an annual basis, providing insight into the economic and commercial issues affecting both listed and privately-held businesses.

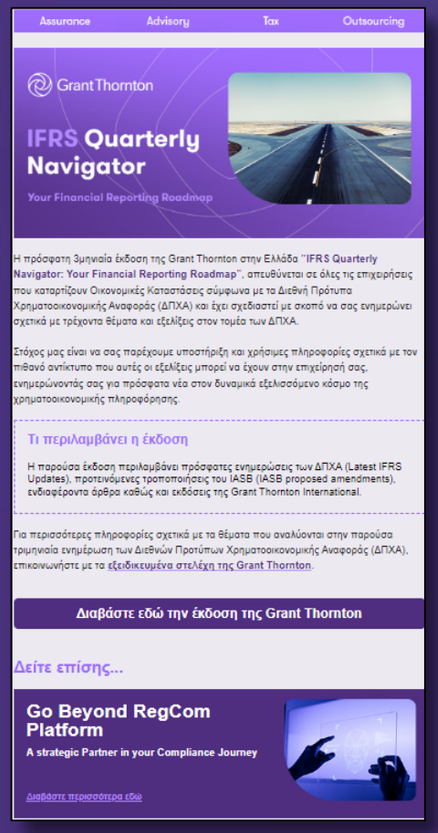

Publications & Newsletters

We produce publications in a variety of issues regarding our services as well as on current developments and a broad range of subjects that are of interest to the business community; giving the opportunity to our executives and our customers to be informed on the latest developments.

Books

Based on the needs of our clients, as well as given the shortage in updated and integrated Greek publications on this subject, we made an attempt to narrow this gap with the Grant Thornton IFRS books. The books were available both through the company's network and major Greek bookstores and received very good reviews.
